

Multiswitch 3000

The Multiswitch can be set for dusk to dawn switching or linked to passive infra-red or other presence detection systems.

When the Multiswitch is combined with presence detection equipment the applications multiply again to incorporate the control of all low voltage switching devices such as CCTV recording, pagers, sounders or the GJD Multispeech voice enunciation module.

- Two volt-free relay contacts suitable for low voltage and mains up to 1500 Watts each
- Dusk to dawn lighting system
- Alarm activated light control with 'light on' timer option of 1 to 24 minutes
- Dusk to 'off' control with timer option of 1 to 8 hours
- Dusk to 'off' followed by alarm activated until dawn
- 12VDC @500 mA to power cameras and / or other ancillary equipment
