

Emerald 3000 MK3

Lighting Controller

A stand alone dual area security lighting controller which enables external areas to be accurately monitored and illuminated.

Automatically switches up to 3000 Watts of lighting at night for a pre-set period and can be manually overridden when required.

Incorporates an audible warning tone and features six detector indicators, which illuminate when activated by detection day and night.

FEATURES

Six indicators

3000 Watts of lighting load

At dusk, detector activated automatic lighting for timed period

Selectable audible beep on detection

Manual override of lights

Links to an alarm system to activate all lights if alarm sounds

BENEFITS

Accurately monitor areas 24 hours a day

Cost efficient

Quick to install

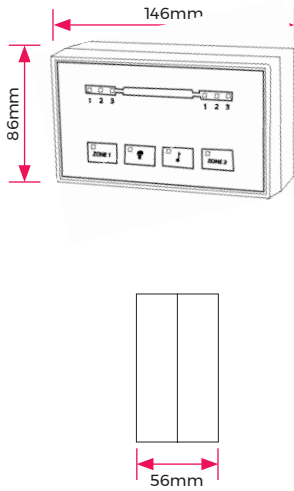

Easy to operate
